

Project Selection Criteria Worksheet

We want to make sure that the process we use to select corridors for further study and recommendations reflects the needs and wants of the community. We have a list of criteria (shown on poster and listed below) that will be used to rank potential projects.

Please help us understand what is most important to you by listing the criteria in order (most important at top, least important on bottom), using the pyramid below.

Most Important

Least Important

- Safety
- Equity
- Mode Share
- Trip Conversion Potential
- Public Outreach
- Access to Key Destinations
- Connectivity
- Roadway Congestion
- Economic Development
- Previous Planning Effort
- Access to Transit
- ?
